Good morning,

I am writing to you to inform you that you are listed as the Texas State Board of Education Representative for my area in Bexar County, San Antonio, Texas.

I have been contacting all of my political representatives to alert them to an ongoing illegal spying and stalking operation that is being conducted by Donald Trump's administration to our family personally.

I am a licensed attorney at law that filed public information act requests to investigate the voting results of the 2020 Presidential election and I was also elected to represent my neighborhood as the Precinct Committee Chair of Precinct #2053 for the Republican Party of Bexar County, Texas.

Since that time, I have been held inside of an illegal spying operation that began from the Donald Trump campaign for President and that has continued to exert itself as a presence over my online work and personal movements ever since.

As I read more about the Jeffrey Epstein scandal and review the documents that are being made public by the legislature at this time, it is becoming readily apparent that the same techniques that are used to oppress and suppress the victim of sexual abuse are also being used to oppress and suppress my home as a victim of the Donald Trump's illegal spying and intimidation operation.

To be more clear, this began as an attempt by the Trump campaign to 'influence' my behaviors, to recruit me to their team, and to shape my political voice as I joined the political representation of my community. It quickly evolved into 'anonymous' damages to my property and a criminal threat to me in my own front yard.

Now, four years later, I am still being maliciously spied upon and 'quietly' stalked by people within the community that quietly 'show themselves' as having information that is private in my life or that seem to be 'sending a message' against my perception as a form of voice for Donald Trump's threatening demeanor. This is a daily occurrence now for what is about 1500 straight days in Trump surveillance 'custody'.

The entire operation is designed to appear 'normal' and not be alarming to the general public or to police (I have notified the FBI, the United States Secret Service, the Texas Rangers, and the San Antonio Police Department of this problem on numerous occasions and none of them are interested in investigating this as an important matter).

Since the operation is a private nuisance to me, personally, and since the activities are so borderline in criminality, my best option at this time is to alert representatives, like yourself, of the ongoing illegal spying and stalking operation that is being pushed from inside of the White House by the Trump administration.

Please understand that your role as a member of the Texas State Board of Education is a serious role that has the power to affect our state, and especially the children of our state.

I am writing to inform you that our federal government is being used as an illegal spying operation on behalf of criminals that appear to be connected to, and are using the same techniques as, Jeffrey Epstein's predatory enterprise.

The use of computers and the internet in our schools and classrooms is facilitating this criminal enterprise to spy on us inside of our homes, and follow us into the community. I am concerned that the children of our communities are being illegally spied upon in their homes, as well, by predators that are hiding inside of our country's national 'security' surveillance forces.

I hope that this message will enlighten you and your colleagues as to the modern forces of 'power' that are operating in our lives and I hope that it will help you to consider the various negative ways that technologies are affecting the citizens of the State of Texas.

(As I conclude this letter, the ongoing spying presence that constantly monitors my home and computer work is now driving yet another loud vehicle past the front of my house to continuously assert the spying presence of Donald Trump into my life.)

I am a member of this community and I am writing to alert you that my own government appears to be operating a psychological warfare operation against my life - by driving countless, endless, unavoidable and threatening messages into my perception.

As my elected representative, I hope that you will consider this notice to you and your office in making decisions to work with the Republican Party, the Donald Trump Administration, and the rest of the Federal government's surveillance team in their ongoing efforts to exert power over our lives.

Thank you for your attention to this important matter.

Kindest regards,

Chris Noel Carlin
